

The 3rd International Textile Conference on New Technology of Dyeing & Finishing

Organized by:

Co-organizer:

Date:

18-19 June 2010

Venue:

Hangzhou Days Hotel, China (4-star hotel)

Introduction:

“International Textile Conference on New Technology of Dyeing & Finishing” is organized to discuss and probe into new technology, new equipment and new dyeing auxiliaries for dyeing and finishing in the international and domestic market. This conference series was started in 2007. Over 400 dyeing & finishing specialists participated in the last 2 editions. Experts and specialists of textile chemicals and dyeing & finishing equipment enterprises from USA, Germany, UK, France, Switzerland and Japan as well as those from institutes and associations in China, have delivered speeches and presented their new products and new technology at the conference.

The 3rd edition is to be held in Hangzhou again this year. Highlights include: advanced dyeing technology, one-time-success dyeing technology, energy-saving and emission-reduction technology, new dyeing process and equipments, ecological dyeing aids, etc. Two specific discussion sections would be arranged in the second day of the conference: **Dip Dyeing Technology** and **Pad Dyeing Technology**. “Dip Dyeing Technology” section will discuss about: dyeing of knitted textiles, yarn and dyeing technology for yarn textiles.

Sponsors:

Tentative Topics:

1. Technical measures to improve one-time dyeing accuracy
2. Color difference analysis for dyeing samples and preventive measures
3. Analysis of color shade and color fastness defects and countermeasures
4. Dyeing process to save energy, reduce emission and improve dyeing effect
5. Dyeing of textiles made of new fiber and selection of dyestuff
6. Technical measures to dye dye-resistant color and selection of dyestuff
7. Key points for knitted goods dyeing process and how to improve the production process
8. Technical measures to prepare dyeing samples and improve color dyeing accuracy
9. Technical application for dyeing test (color measurement, color matching and automatic dosing)
10. Discussion on advanced dyeing process
11. Comparative analysis on performance of new-type dyeing machinery
12. Environmental-friendly textiles and their selection of dyeing chemicals
13. Energy-saving and effluent-reducing measures for dyeing enterprises

Sponsoring:

We heartily invite your company to become a sponsor of this conference. A sponsorship will give you outstanding exposure to a highly specific audience. Take the opportunity to communicate your strong message to business partners.
