

The 3rd International Textile Conference on New Technology of Dyeing & Finishing

Organized by:

Co-organizer:

Date:

18-19 June 2010

Venue:

Hangzhou Days Hotel, China

Introduction:

“International Textile Conference on New Technology of Dyeing & Finishing” is organized to discuss and probe into new technology, new equipment and new dyeing auxiliaries for dyeing and finishing in the international and domestic market. Over 400 dyeing & finishing specialists participated in the last 2 editions. Experts and specialists of textile chemicals and dyeing & finishing equipment enterprises from USA, Germany, UK, France, Switzerland and Japan as well as those from institutes and associations in China, have delivered speeches and presented their new products and new technology at the conference.

The 3rd edition is to be held in Hangzhou again on Jun 18 this year and the highlights are advanced dyeing technology and dyeing and finishing pre-treatment technology which includes, energy-saving and emission-reduction technology, new dyeing and finishing technologies and equipments as well as dyestuff and auxiliaries, etc. Two specific discussion sections would be arranged: **Dyeing** and **Dyeing & Finishing Pre-treatment**.

Sponsors:

Rundown and Topics:

Jun 18 (Main Hall)

1. Requirement of energy-saving and emission reduction for dyeing & finishing industry and approaches for implementation.
2. Use of new-type pretreatment aids (reactive and disperse) and dyestuff to ensure one-time success for dyeing.
3. Energy-saving and emission reduction technologies on cold pad batch dyeing and washing.
4. Importance for dyeing and finishing mills to make proper treatment of water (wastewater discharge, recycling and cost control)
5. Bleaching technology and new development for natural fiber.
6. Latest development of color management and textile testing technology.
7. One-bath dyeing technology for cotton blended and interwoven products.
8. Challenges in dyeing of popular new-fiber textiles and solutions.
9. New Changes and latest development of 2010 Oeko-Tex® Standard 100.
10. Introduction of international advanced technology (e.g. MAXPRO)

The above topics will be delivered by experts from Society of Dyers and Colorists (SDC), China Textile Engineering Society, University of Donghua, Zhejiang Polytechnic University and enterprises from USA, Germany, Switzerland, Hong Kong, Shanghai, Suzhou and Shandong.

Jun 19 (2 seminars will be hold in 2 different venues)

Venue ONE: Dyeing & Finishing Pretreatment

1. Bio-enzyme and its application in dyeing & finishing pretreatment
2. Hydro-peroxide activator low-temperature bleaching system and application
3. MAXPRO Continuous pretreatment process
4. High-efficiency short-process pretreatment technology and applications
5. Continuous open-width kiering, bleaching and washing of cotton and cellulose knitwear.
6. High-efficiency, environment-friendly pretreatment aids and applications

Topics for exchange and consultations:

1. Energy-saving and emission-reducing process, devices and aids for dyeing and finishing pretreatment
2. Analysis of the relations between dyeing & finishing defects and pretreatment and measures to prevent key defects in pretreatment

Venue TWO: Dyeing

1. Advanced experience in improving one-time dyeing accuracy
2. Technical measures to deal with difficult-to-dye color in reactive dyestuff
3. Development of new-type disperse dyestuff (applicable to one-bath process, high washing fastness and high-speed dyeing)
4. Introduction and application of Huntsman's dyestuff, Novacron[®] S & Terasil[®], Eriofast[®]
5. A case study: Sustainability Improvement within a Textile Processing Mill
6. Introduction of DyStar's new dyestuff
7. High-efficiency, environment-friendly dyeing process and applications.

Topics for exchange and consultations:

1. Energy-saving, emission-reducing technical equipment, dyestuff, auxiliaries and technical measures for dyeing production
2. Analysis and measures to deal with color shade and color fastness in dyeing (yarn and fabrics)

Admission Fee

Delegation with accommodations: RMB900/pax

Delegation without accommodations: RMB400/pax

The 3rd International Textile Conference on New Technology of Dyeing & Finishing

Tentative Delegates Invitation List (Partial)

Shanxi Huajin Textile Printing & Dyeing Co Ltd	Linyi, Shanxi
Qingdao Phoenix Printing Dyeing Co Ltd	Qingdao, Shandong
Shandong Ruyi Group Co Ltd	Jinan, Shandong
Jinan Yuanshou Knitting Co Ltd	Jinan, Shandong
Sichuan Mianyang Nanshan Printing and Dyeing Co Ltd	Mianyang, Sichuan
Bengbu Yimao Textile Co Ltd	Bengbu, Anhui
Xinyu Tianxiang Textile Printing & Dyeing Co Ltd	Xinyu, Jiangxi
Nantong Taierde Garment Co Ltd	Nantong, Jiangsu
Jiangsu Xinmin Textile Science & Technology Co Ltd	Wujiang, Jiangsu
Jiangsu Yueda Textile Group Ltd	Yancheng, Jiangsu
Jihua 3543 Knitting Clothing Co Ltd	Zhuozhou, Hebei
Magnolia Flower Hometex Co Ltd	Nanyang, Henan
Zhejiang Colorful Phenix Yarn dyed Co Ltd	Pinghu, Zhejiang
Ningbo Qiaoxingtai Textile Co Ltd	Ningbo, Zhejiang
Zhejiang Hisun Group Co Ltd	Zhoushan, Zhejiang
Hangzhou Tianqi Printing & Dyeing Co Ltd	Yuhang, Zhejiang
Zhejiang Sincere Textile Co Ltd	Huzhou, Zhejiang
Jianxing Mengdi Group Co Ltd	Jianxing, Zhejiang
Huaqiang Group	Shaoxing, Zhejiang
Fulida Group Holding Ltd	Xiaoshan, Zhejiang
Xiangfan New No.45 Printing & Dyeing Co Ltd	Xiangfan, Hubei
Hunan Huasheng Zhuzhou Cedar Co Ltd	Zhuzhou, Hunan
Fujian Shishi Hualian Knitting Co Ltd	Shishi, Fujian
Fujian Zhonghe Co Ltd	Putian, Fujian
Fujian Zhangle Futai Dyeing Co Ltd	Zhangle, Fujian
Foshan Lianda Textiles Industries Co Ltd	Foshan, Guangdong
Fountain Set (Holding) Limited	Dongguan, Guangdong
Goldtex Group Co Ltd	Shunde, Guangdong
